“The children in the programme now might be the ones to change the world – and volunteering for them and fundraising for them is what could make that happen.”

Clare, former mentor and Paris marathon finisher 2019

“She has become a more positive, confident person. She's now able to talk to people she doesn't know and teachers have commented on how she has grown in confidence. I love the change in how she interacts with and feels about the world.

The matching was perfect. [The mentor] has been amazing..always cheerful, really listens and pays attention. You can tell she's there for [my daughter]. She's had a huge impact.”
